

2022

Thanks to the donations of our members, Tampere Commandery has been able to donate 10.000 € with the help of the social work channels of the Lutheran church. The support has gone directly to the poor who really need it and at a time of the year that other charity organizations are normally not active.

The Commandery of Central Finland organized in April 2022 a charity concert. The result was 2.970 € and the amount was directed, with the help of Church's Foreign Aid, to children in Ukraine.

2019

The **Commandery of Tampere** donated 5000 Euros for charity.in the year 2019.

During Easter, 4000 € was donated through deacons of the Lutheran Church to poor children for summer.

We planned to donate 5000 € for Christmas, but because there was greater need in January 2020, the donation for 2019 was only 1000 € (for families with children) and 4000 € was the delivered in the first part of 2020.

We also had a recreation day for handicapped children with skee doo riding and barbecuing sausage on bonfire.

At the Johanneksen Klinikka, some people have been treated for free by our different medical specialists.

The **Commandery of Central Finland** was just started in 2019 so donations have been made individually, not by the Commandery.

2011

- Support for the Plan Finland Foundation to provide monthly help to a student on a special project. This was by way of a test project. 300 €
- Sewing Machine for a poor dress maker student. 675 €
- Assistance to young students in danger of social exclusion. The subsidy was through the Evangelical Lutheran Church and their Messi support centre. It was very useful in keeping distressed students in school. 2000 €
