Pro Fide, Pro Utilitate Hominum. For Faith, For Service to Humanity

- Vision:** Guided by our motto *for faith, for service to humanity*, we collaborate on innovative programs and services that benefit the Lord's sick and poor in British Columbia.
- Mission:** We play a leadership role in the delivery and funding of traditional hospice projects and contemporary community-based programs that advance our Vision based on embracing three priorities: strengthening compassionate communities of care, training and education, and innovation and excellence.
- Values:**
- Respect – we believe everyone deserves to be treated with equality and dignity through the entirety of their days on Earth
 - Honour – we believe everyone has the right of personal choice, without regard to whether or not we personally disagree with that choice
 - Partnership – we believe in the benefit of partnering with other leaders to bring about real change and improved outcomes
 - Excellence – we believe in implementing best practices, with a particular but not exclusive focus on services known as hospice palliative care
 - Service – we believe we are called to serve others with the resources at our disposal
